

*"I'm taking the time to work
on myself right now."*

Taniyah

12 YEARS OLD

I love ice skating! I'm in a skating club and had the chance to show off my ice dancing skills during our end of season recitals. I think my favorite skate dance was to a Grease song!

Taniyah is a huge advocate for herself and is beginning to recognize what she wants and needs in her life and isn't afraid to ask for it, even if it isn't always easy. She has become more focused on her own well-being and recently began exercising and tracking her steps! She knows that she needs a very strong family that can support her through the journey ahead, and is hoping for a mom and dad or a single mom. She wants a family that has a lot of humor and can keep her and others safe. She'd do best as the only child or with older siblings that she can look up to. She has three younger siblings that she needs to stay connected to as they are an important part of her life.

*To get to know Taniyah better, contact
