David (11) is a handsome outgoing young man with a great sense of humor, creative storytelling, and a great memory. He is comfortable talking with adults and thrives on structure and stability. David likes animals, playing games, watching video games & You Tube (singing and dancing), various fruits & vegetables, walking to the library and is creative in collecting things. He speaks both Spanish and English with a good singing voice. David has been very helpful and caring in the foster home. He loves football and hopes to play on a team in the future. David is friendly with a mild manner.

David would like a family who is willing to commit to permanency, be willing to continue services with his current therapist, and support him to strengthen skills to become independent. He desires one-on-one adult attention, maintaining contact with his birth family, and maintaining his Spanish speaking ability.
