

Welcome!

Thank you for your interest in PATH ND.

PATH ND services help children and families in North Dakota and Idaho who have experienced complex trauma, family struggles, and serious behavioral health problems. Most of those served by PATH ND also benefit from PATH's Behavioral Health and Family services to improve their situation, mediate family disruption, and resolve safety, well-being, and permanency challenges.

PATH ND is a national leader in utilizing treatment families to mitigate emotional and behavioral needs and difficulties that have historically been served in more restrictive residential and institutional settings. Approximately 78% of the children served by PATH ND return to less-restrictive environments, typically their family home. Our core treatment services are enhanced through evidence-based practices and are accredited by the national Council on Accreditation (COA).

PATH ND conducts the highest levels of training for professionals, foster parents, families, and child and family team members. We actively practice high-fidelity Wrap Around services with family therapy, adoption, independent living, and numerous other supportive services.

The PATH ND Board of Directors supports this agency's work through strategic initiatives and strong leadership that values the best in service delivery. We all work with dedication to the children and families we serve.

Very Truly Yours,

A handwritten signature in black ink, appearing to read 'William A. Metcalfe'. The signature is fluid and cursive, with a long horizontal flourish extending to the right.

William A. Metcalfe, Ph.D, LICSW  
Chief Executive Officer, PATH ND
